FLEXIBILITY | ASSEMBLED AND NOT ASSEMBLED PRODUCTS PAINTING

QUALITY | SPRAYERS PRODUCE AN EVEN COAT OF PAINT, LEAVING A HIGH-QUALITY FINISH

AUTOMATIC MACHINE

SPRAY TECHNOLOGY

Benefits

One of the main and most obvious benefits of using a paint machine is the speed and flexibility at which we can suggest our painting service for all of our products. A spray paint machine can get the work done faster and more consistently than manually painting. While the machine works faster, it improving quality too – sprayers produce an even coat of paint, leaving a high-quality finish.

With our painting service from now, we can suggest to our client's maximum flexibility! Not assembled products as Grill cabins, Pavilions, Camping pods, and other products of any size you can order painted too!

PROFESSIONALLY SPRAY

The high-quality preservative finish is professionally spray applied in the factory to one side of the wood. The product is treated in your choice of color. You can choose two colors for one product: one for almost all product details and another for finishing details.

Which type of painting should I use?

Properly painting and impregnating is one of the most important things to consider when thinking about how to extend your product lifetime.

Paint and natural wood finish instantly spruce up the aesthetics of your product. The decision you will need to make is if you

want to use a water-based wood stain or paint. Both will offer you UV protection. The wood stains will allow the texture of the wood to show through and many are now available in a vast range of colors, however, paints will give you a intensive color, but will cover the grain and texture of the wood.

The wood stain treatment shows the wood texture

The paint will cover the texture of the wood

FEATURES

PROFESSIONAL WOOD PROTECTION STAIN

- Low - build stain
- 3 in 1: impregnation, priming and stain
- Protects wood from moisture and provides effective protection against blue stain fungi
- Increased solids content provides protection against nesting wasps
- Protective film against mold and algae
- Water-based: does not give off any unpleasant odors
- Subsequent treatment without sanding
- Long-term protection with uniform weathering
- Penetrates deeply
- Breathable
- Does not flake
- All colors are mixable with one another

WEATHER PROTECTION PAINT

- Highly opaque
- Does not flake
- Alkali-resistant, including when used on mineral substrates
- Weatherproof and moisture-regulating
- Low solvent, environmentally compatible, mild odor
- Quick drying
- Scrub-proof
- All colors are mixable with one another
- Brilliant, pure, intensive colors have a lower hiding power due to their pigments
